SUPERMAILER

Specially Designed For Mass mailing Application

'C' Fold ▲

'Z' Fold ▼

BFG Series

Supermailer BFG Series is exclusively designed for empowering mass-mailing applications. The system enables the online folding, gluing and the perforation at a time. Different types of folds like Single Fold, Double Parallel Folds, U-type Folds and Z-type Folds are possible with Supermailer. Supermailer is equipped with the world class gluing system for neat and clean gluing of all the three sides. Point perforation as well as line perforation can be done as per the requirements.

The High-speed function of Supermailer facilitates the quick as well as tidy-n-spotless delivery of mass mailing applications.
